SUMMARY

A software developer with experience in leading the development of production web applications and industry software projects. Skilled in full-stack development using HTML, CSS, JavaScript/TypeScript, cloud infrastructures, and modern frameworks like React and SvelteKit. Passionate about building scalable software solutions, delivering products from concept to deployment, and continuously learning emerging technologies.

EDUCATION

University of the Philippines <i>BS Computer Science (cum laude)</i>	Baguio City, Benguet Sept 2021 – July 2025
DOST-SEI JLSS Scholar <i>DOST Junior Level Science Scholarship Program Awardee</i>	CAR 2023–2025
Calamba City Science Integrated School <i>STEM Strand (Graduated with Honors)</i>	Calamba City, Laguna 2019–2021

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, PHP
Additional Technologies: SvelteKit, React, Next.js, Laravel, TailwindCSS, MongoDB, MySQL, Vercel, Hetzner, Coolify, Docker
AI Tools: Claude, ChatGPT, Windsurf (formerly Cursor)

EXPERIENCE

Head of Development <i>The Destination Channel (Industry)</i>	Nov 2025 – Present
- Spearheaded the end-to-end development of the StaycationGo direct-booking platform from concept to production deployment. - Architected and implemented the platform's frontend, backend, CMS, cloud infrastructure, and booking management systems. - Integrated Stripe payment processing, host onboarding, checkout workflows, and automated transaction handling. - Led technical planning, stakeholder coordination, deployment strategy, and platform optimization efforts. - Attracted 30+ waitlist signups from high-end property owners and onboarded 5 hosts within the first two weeks of launch. - Platform: staycationgo.com	
Software Developer Intern <i>Project LODI – DOST-SEI</i>	June 2024 – Aug 2024 (240 Hours)
- Contributed to the development of an Internal Audit Management System across both frontend and backend components. - Implemented and maintained <code>audit-team</code> and <code>line-item-budget</code> modules using Laravel, Blade, CSS, and jQuery. - Collaborated with mentors and fellow developers in an industry-oriented software development environment.	
Software Engineer & Project Manager <i>Client: UP Baguio Office of the University Registrar (OUR)</i>	Feb 2024 – June 2024
- Led a team of developers to create an automated internal tracker of requested documents for the OUR at the University of the Philippines. - Helped quicken their internal document processing from labor to one click of a button. - Worked on the frontend and backend as well as organizing tasks and priorities for the product	

RELEVANT PROJECTS

StaycationGo Socials <i>Industry Project</i>	Jan 2026 <i>ReactJS, TailwindCSS, TypeScript, Firebase, Stripe, Coolify, Hetzner</i>
- Developed a video marketplace platform for hosts featured on Staycation TV. - Designed and launched the platform within one week to support new social media visibility opportunities for hosts. - Designed a responsive UI/UX optimized for desktop and mobile devices. - Link: socials.staycationgo.com	
Emblaze App <i>Personal Project</i>	2025 <i>SvelteKit, TailwindCSS, PixiJS, TypeScript</i>
- Developed a browser-based MIDI renderer that visualizes and animates MIDI files in real time. - Created high-performance rendering workflows optimized for visualization and export. - Designed a responsive interface for creating and viewing MIDI visualizations across devices. - GitHub: github.com/AndreBryant/emblaze-app	
UPB SUBAYBAY <i>Software Engineering Project</i>	Feb 2024 – May 2025 <i>HTML, TypeScript, SvelteKit, TailwindCSS, MongoDB, Docker</i>
- Led development of a request tracking system for the Office of the University Registrar of UP Baguio. - Automated spreadsheet exports, reducing manual report preparation and improving data accuracy. - Served as both project manager and developer, overseeing project planning and implementation. - GitHub: github.com/brymer-meneses/Subaybay
